Ms Roberta Metsola
President
European Parliament

Subject: Invitation to Elon Musk to address the Plenary

Honourable President,

The European Parliament has the potential to serve as a central platform for accelerating development and ensuring that the EU effectively represents the interests of all Europeans.

We should initiate a broader dialogue on revitalizing Europe's productivity, both in capital-intensive and labor-intensive sectors, enabling the continent to remain competitive on the international stage.

As part of our efforts to host distinguished and symbolically significant guests, we propose extending an invitation to Elon Musk to address a Plenary session. Musk, a trailblazer in the digital revolution, has redefined innovation by surpassing non-productive frameworks.

We recognize the motivations that have driven his groundbreaking achievements, his visionary perspective on global progress, and his insights that could make the EU a hub of creativity and technological advancement, again.

Kind regards,

Emmanouil Fragkos (ECR, GR)
Tom Vandendriessche (Pfe, BE)
